YOU GOT THE DIME/WE GOT THE TIME!

Letters to this column should be addressed to: You Got The Dime, We Got The Time/CARtoons 8490 Sunset Blvd. Los Angeles, Calif. 90069

A LIL' NOTE IN PASSING . . .

O.k. . . . So, we said an issue or two ago that we'd pick ten winners in the van contest, right? Well, kiddos, that contest turned into such a winner it's self that we've decided that they'll be 20 WINNERS! If we printed half the amount we recived, we'd be printing van cartoons 'til next spring. We want to say "THANKS" to every one who took time to enter and only wish we could print everyone's art.

Now then, maybe you didn't win . . . So pick up on the "Write the most DARING Van-In headline" contest in our Van-In section. This contest gives you a chance to write a newspaper headline and we supply you the space and the type. Let's see how well you'd make out as a newspaper man, man!

I loved your first issue and will be reading all the ones I can get my hands on. Only one lil' gripe. Before we could address our letters to "Unk" or "Pappy" but now who do we write to? Could you let me know? Love your mag.

Donald Hirsch
Vacaville, Calif.

Good point, Don . . . Best send all letters to this column but stick ol' Den-Den's name on the envelope (that's Dennis Ellefson) tha'll keep him busy and off the streets.

The Winternationals issue was good. The thing by Bruno was really insane, is he? Glad to see Pete Millar doing things again, he's the guy who made it all happen. What happened to Hinton? He was no where in the issue. You guys said you'd be using him.

The story line in Hogg Ryder and the story line in Krass and Bernie were kind of alike. Both parties got airborne. Was that done on purpose?

Allen Meens,
Lawrence, Kan.

Yep!

I must say that the "New" CARtoons is alright. I stopped reading it several years back because it got well, no offense a little too much for small kids. But the other day it caught my eye and out of curiosity I bought a copy and was surprised. It looks like the subject is about cars again. One thing I thought was rather funny was that Hogg Ryder has been in every cartoon book about wheels that you guys do. Does Ellefson take him along each time he moves into a new area? I'm nor trying to be a smart guy,

just wondered.

Angelo Bianci,
Orlando, Fla.

Good letter, Angelo . . . Yeah that Ellefson . . . Could you imagine what would happen if he got a job at National Geographic?

I really liked the Winternationals issue. I didn't like the dumb story by Bruno. Why did you run it, anyway?

Mike Vaneelo,
Hibbing Minn.

The four pager we planned never showed up!

What happened to Unk and the varmints? I picked up CARtoons and they weren't in anymore. What happened?

A reader

Time for a change, so we changed... What more can we tell you?

I didn't see Dave Deal in the number two issue. Are you guys still going to use him? He's my fave car artist and I wish you'd use him

Bill Speakmore
Taos, N.M.

He's aboard this ish Bill. We plan to use him as much as time will permit.

I like the new CARtoons. I only wish you'd put in out more. I'd like to see it every month. Keep up the good work.

John Simmons,
La Verne, Calif.

O.K. John... How's this sound. Next issue we go to monthly for the summer months (July, Aug. Sept. Oct) Hows that do ya?

Hey, Krass and Bernie are tops. I loved Trosley's stuff, he's right on with the cars and I see his work in a lot of other non-car mags. The rest of the mag is super. Keep 'em comin'.

Arnold Bates,
Ark.

Yeah, ol' Tros does get around. We will keep 'em comin'!

Wanted to drop a line and say that I dig Bill Stout and Dennis Ellefson's work. Stout's history of the car is really funny. Hogg Ryder is the best thing in the mag (I think) So, keep Stout in there, and always have Ellefson do Hogg Ryder.

Nat Miller,
Dennison, Tex.

Right Nate, Stout is tops on the history trip. We'll make sure Den-Den does Hogg, since it keeps him off the Blvd., where he's been known to get into trouble.

I for one would like to see more on vans, since I dig vans. How about it? A real all van issue?

Billy Hill,
Las Vegas, Nev.

Welp, Billy... As you can see your letter got printed in this issue, and you find it contains a big Van section, o.k.?

I noticed that you don't run the lonely hearts thing in the letters section anymore. I think that's pretty good idea. I'd rather see more contest and things like that than those dumb letters. Book is looking real good.

W. Douglas,
Coeur-D'Alene, Idaho

Right, be sure to pick up on the headline contest in the Van-In section.

Boy, I have seen some dumb people before, but you take the cake! I'm referring to February's issue. The guy that wrote and asked you if you knew what Bondo was. I thought for sure you would know, I mean, it is a car book, right? Well, I'm a girl and I even know what bondo is. For example: Snow White body putty, Black magic.

Janell Sannan
Eustis, Florida

It was a joke-ya know, Ha Ha-sigh!!

I have a friend, and his dad has a gold '68 Mustang with a 390 Hi-Po engine and a Hurst four on the floor shifter in it. It also has L-40 slicks on the back and g-60's on the front which gives him plenty of horsepower and traction. So all of you Chevy and Plymouth freaks, if I were you, I wouldn't try to beat him in a race because he will leave you setting in your tracks.

Jeff Mc Guyr
Canton, Ohio

He most likely will!

I've been reading your new mag and I really like it. My dad races (cars) and its a vette. I really like vettes and I was wanting to know if there was going to be more vettes in your mag. I wish there was a way you could put out two Cartoons a month.

Mitch Chance
GOT A 'VETTE ISSUE COMING SOON!

Your new style is outasight! You got the best artists, Deal, Dewey and Grube! And I am still laughing at your Laguna Seca feature (Local, ya know) I used to have a '51 Chevy with a six banger and 1/2 barrel carb, but I drove it into Lake El Estero (elk!) Keep up the good work.

David Rauhauser (16)
Monterey, California

Ah, yes-Fabulous Monterey

Don't get me wrong cars are keen, but not all of us are old enough to drive them. So why don't you do a little model car and bike stuff for us younger readers?

Bob Eickelmann
Indio California

O.K. Bob babes we'll take it into consideration.

I've been reading your mag for a long time. I've missed a few issues but I try not to. I really dig on 1957 chevys. I haven't seen much of them lately in your mag, so could you do some stuff on them?

John Robertson
Rock Island, Ill.

I've been reading your mag for a long time now. I have a 48 chevy pickup with a 327 vette engine and a 69 vette rearend. Well I'll get right to the point in some past issues you had some cartoons about trucks, but they were all Fords. Now lets get some Chevies in there like a 48 o.k.

Rocky Villanueva
Santa Ana, Calif.

48 Chevies.....Well.....O.K.....

I am a boy that is 11 years old and draws cars, vans, trucks and dragsters. In the future I would like to see a bigger mag, but will it cost more money with the paper shortage and all? I am a pretty good model builder and the two latest models I have built are the Bodysnatcher and the Overtacker. I buy almost all of the issues of Cartoons.

Randy Roybal
Pueblo, Colorado

You're a good Lad. Yes the paper shortage is a pain in the staples we can only do our best.

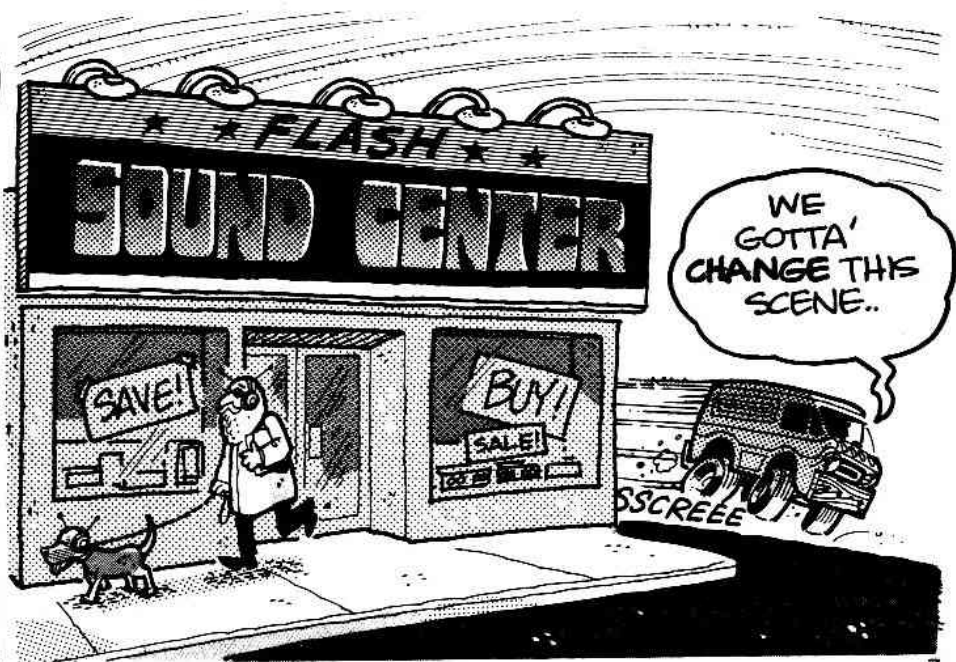

I just bought my first issue of Cartoons. I really dig it. How often do you print your mag?

David Borgeest
Latham, New York

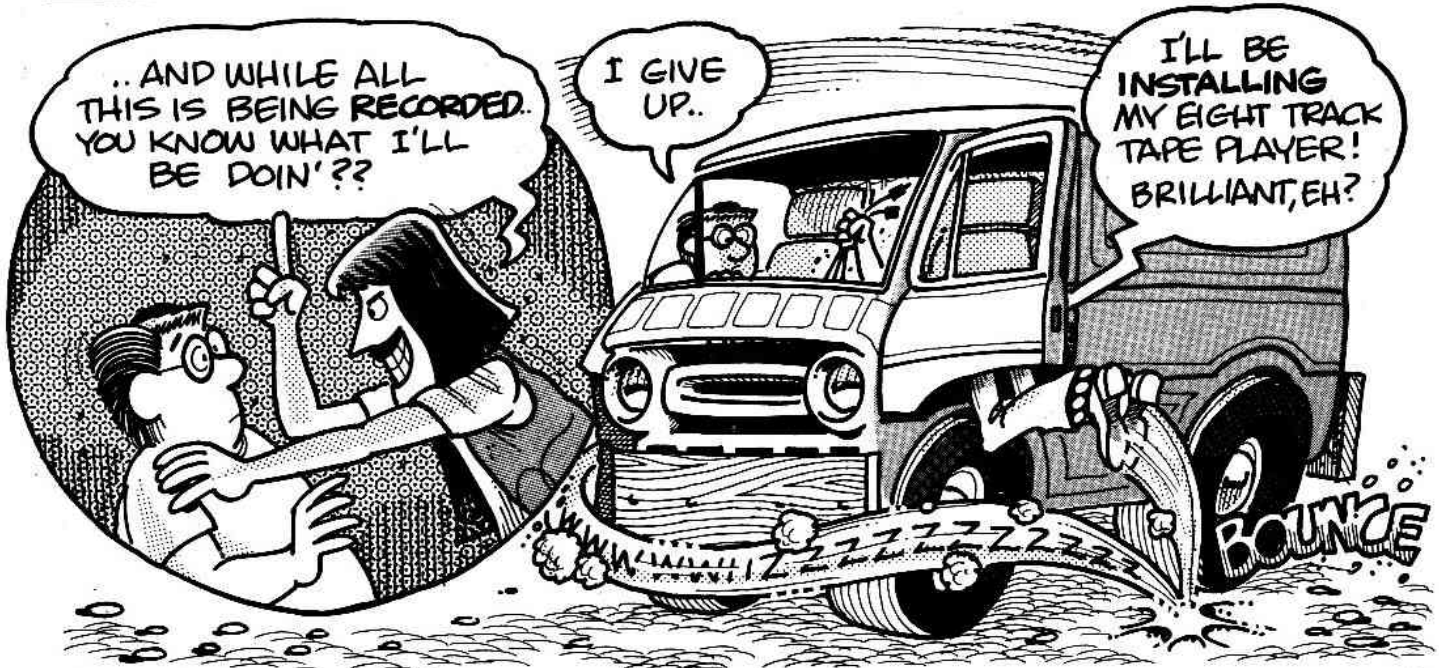

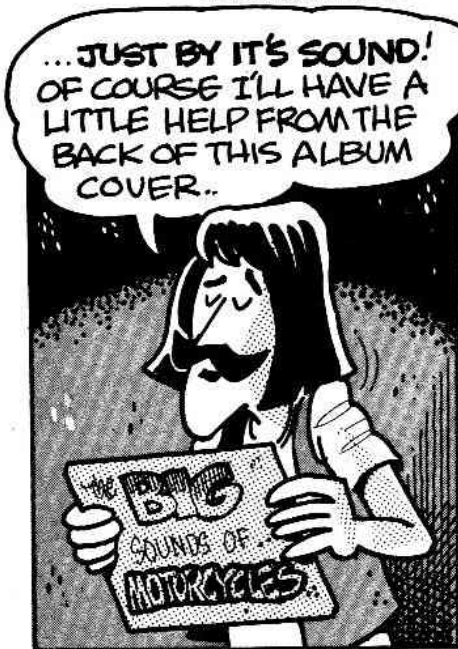

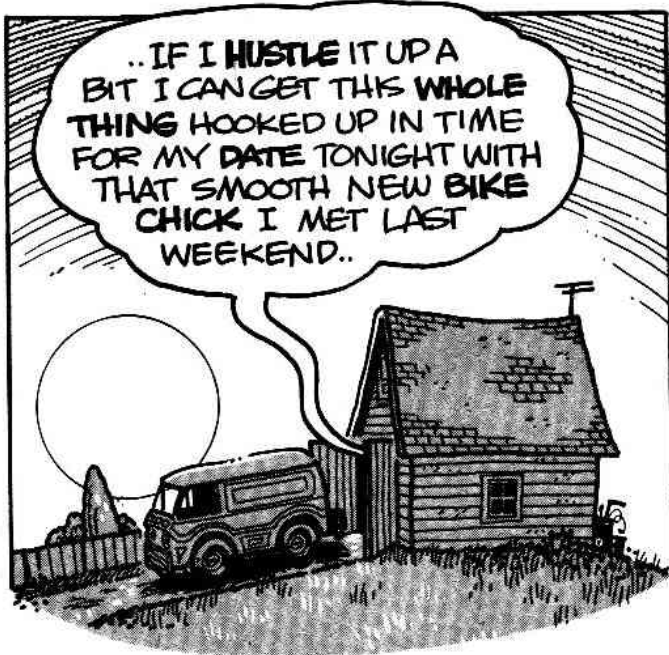

After this issue, every month through the summer

HISTORY OF THE CAR

VOLUME 3: CLASSICAL GREASE

Wm Stout '75

A tougher bunch of bikers and car freaks than the Spartans of Classical Greece could ne'er be found. Raised from birth on motor oil (40w) and trees, these fellows would exist on the barest of necessities foregoing such automotive luxuries as "tape decks," "tires," or "brakes".

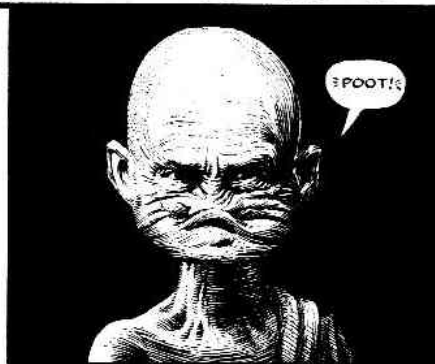

One of the Greek traditions we still maintain is the Olympics. Originally a world wide car rally, the Olympics fell into all that boring foot race stuff when in 776 B.C. it was revealed by the oil companies that there was a gasoline shortage. So, prices were raised making the use of autos in the Olympics prohibitive. Above are winners with their prizes.

ALEXANDER the GREAT

Son of Philip the Pretty Good, Alex attempted to conquer the world the hard way (with armies) instead of the easy way (with parking lots).

ARISTHROTLE

Alexander's driving instructor — also a whiz in science and a heckuva nice guy.

PHAETHON

The son of Helios. He drove his old man's sun chariot through the sky, spun out on a curve, lost control and was immediately and summarily french-fried by Zeus (who had his drachmas bet that the kid would make it).

LARCENUS

The God of Car Repairs — favorite god of wealthy Greek auto shop owner, Euripedes Peepolof.

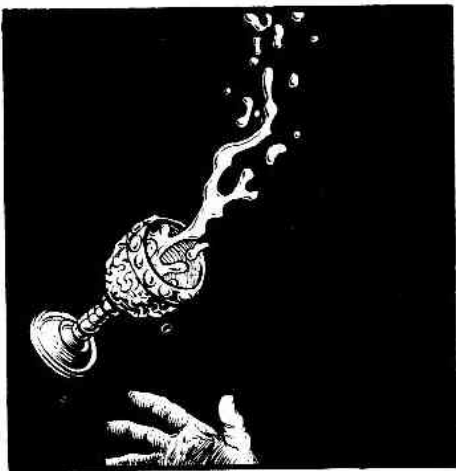

ROBERTES WILLIAMUS

The God of Chrome — his major patron was a toupee merchant who built a shrine for his honor and worship called the ChromeDome.

KITSCH

The God of Rear View Mirror Fuzzy Dice. Kitsch also ruled over dashboard Jesus figurines, high school graduation tassels, and rear window dolls with the bobbing heads.

SOCRATES

Was sentenced to death for not reading **CAR-TOONS**. He committed suicide by drinking "hemlock" — a potion whose toxicity is somewhere between red mountain and a Jumbo Jack.

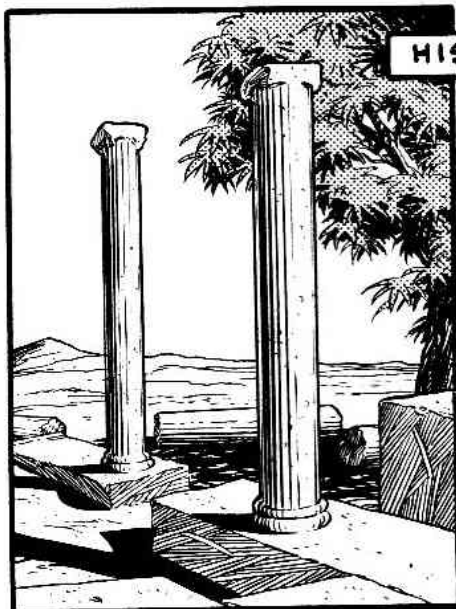

HELEN of TROY

The face that launched a thousand trips (even during the "gasoline shortage").

The ORACLE at DELPHI

Famed for his accurate predictions of the Sunday Drag Race winners.

Grecian Car Lifts

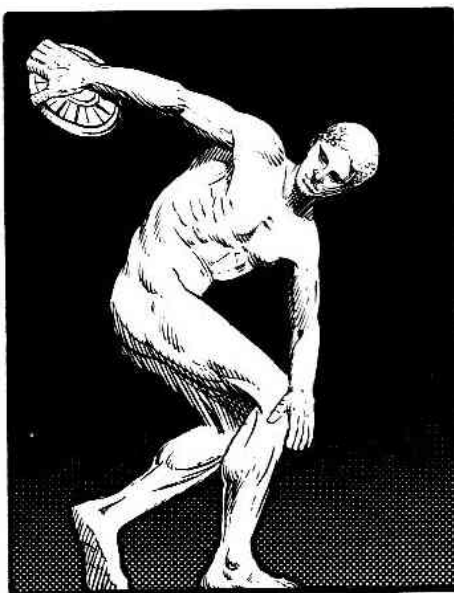

HISTORY OF THE CAR MUSEUM

Gasoline was carried to stranded motorists in urns like the one above. Young lads could make quite a bit of money performing this service; hence, the term: "Urning a living."

During the severe height of the "gas shortage" eruptions of violence at service stations were quite common.

The HUB CAP THROWER by Myron

CAR-TOONS EXCLUSIVE! In a recent excavation the missing arms from the Venus de Milo were finally unearthed. **CAR-TOONS** editor and culture buff Den-Den spared no expense in flying Doctor Otto to Greece to obtain the first pictures of the newly completed statue. So that you may compare we present pics of the Venus both before and after restoration.

ZAMMY BANANOS IS A FINANCIAL GENIUS AND VAN FREAK. BY THE TIME HE WAS 16 HE HAD CORNERED THE BUG COVER MARKET AND PARLAYED \$15.21, EIGHT BOTTLE CAPS AND A YARD OF VINYL INTO A WALL STREET FORTUNE. NOW ZAM HANGS AROUND COUNTING HIS MONEY AND RUNNING BARE-FOOT OVER HIS IMPORTED RANGOON SHAG RUG AND LISTENING TO HIS QUAD STEREO SYSTEM PLAYING ROY ACUFF. IT BECAME APPARENT THAT ZAM WASN'T YOUR AVERAGE RUN OF THE MILL TEENAGER WHEN HIS PARENTS BECAME DELINQUENT AND HE CUT THEIR ALLOWANCE AND SENT THEM OFF TO MILITARY SCHOOL. LAST MONTH ZAM HELD HIS OWN PRIVATE VAN-IN ON THE FRONT LAWN (WHAT THE HECK, THE FOLKS WON'T BE HOME FOR A COUPLA YEARS, ANYWAY) AND IT WAS A TERRIFIC SUCCESS. PLANS FOR THE FUTURE??? WELL, ZAM WANTS TO JOIN THE FUTURE FARMERS OF AMERICA AND RAISE HOGS WITH SLOTS IN THEIR BACKS. BECAUSE ZAM IS TOO OLD TO PUT HIS MONEY IN PIGGY BANKS.
